

4TH THEMATIC WORKSHOP OF FAERE

French Association of Environmental and Resources Economists

November 26-27th, 2015, VILLEFRANCHE SUR MER

On:

« Marine ecosystems services »

Call for papers

The 4th thematic workshop of FAERE (<http://faere.fr/fr/>) will be held at **LOV** (Villefranche Oceanographic Laboratory, Villefranche sur Mer, France, <http://www.lov.obs-vlfr.fr/>) on November 26-27th, 2015.

It is an interdisciplinary workshop that aims to bring together different disciplines - including, but not limited to, biology, ecology and social sciences – to interact about the issue of marine ecosystem services.

A wide range of topics are welcome, including: conservation biology, environmental ethics, environmental and/or ecological economics, marine regional planning, environmental agreements, the fight against

pollution, biodiversity loss, natural hazard management, property rights, climate change, green growth, recycling, threshold effects and irreversibilities, evaluation of environmental damages...

The program will consist of oral presentations, which will undergo a selection procedure, and three invited talks (keynote speakers to be announced later).

Important dates:

Submissions: no later than September 30th, 2015.

Acceptance: October 15th, 2015.

Registration deadline: October 30th, 2014.

Submissions:

Papers or extended abstract to be submitted to: irisson@normalesup.org and Charles.Figuieres@supagro.inra.fr.

Conference language:

Unless otherwise stated, presentations will be in english.

Coordination

Jean-Olivier Irisson (LOV, UPMC), Charles Figuières (INRA – [LAMETA](#), Université de Montpellier 1, Vice-President of FAERE).

Local organisation committee

Anne Silbermann (anne.silbermann@obs-vlfr.fr).
