

Assistant Professor in the School of Energy and Environment

City University of Hong Kong is a dynamic, fast-growing university that is pursuing excellence in research and professional education. As a publicly-funded institution, the University is committed to nurturing and developing students' talents and creating applicable knowledge to support social and economic advancement. The University has seven Colleges/Schools. The University ranks 49 in the 2017 QS world university ranking.

The School of Energy and Environment was established at City University of Hong Kong in July 2009 with the mission to perform cutting-edge research and provide professional education in energy- and environment-related issues. It is the first and only such School in Hong Kong and one of the few in Asia. For details of the School, please visit our website at <http://www.cityu.edu.hk/see>.

The School is currently seeking outstanding candidates to fill openings in:

Energy and environmental economics with an interest in health economics

The School seeks candidates who will be able to complement and build on its existing strengths in energy and environment. School has experienced tremendous growth over its six years. It is expected that successful candidates will contribute to the continued development of a vibrant multidisciplinary environment for research and teaching.

Duties

Teach at both undergraduate and postgraduate levels, supervise research students at master and doctoral levels, conduct high-level research, develop new research directions and courses when necessary, and contribute creatively and professionally in the School, and for the benefit of the community and industry. The appointee will also be assigned to take up administrative duties to facilitate the development of the activities of the School.

Requirements

A PhD in a closely-related discipline with a strong research record in terms of grants, publications, and good teaching ability.

Salary and Conditions of Service

Remuneration package will be very attractive, driven by market competitiveness and individual performance. Excellent fringe benefits include gratuity, leave, medical and dental schemes, and relocation assistance (where applicable). Initial appointment will be made on a fixed-term contract.
