

ANNOUNCEMENT

CONFERENCE

PUBLIC POLICIES IN THE CONTEXT OF GLOBAL CHANGES: Climate Change, Biodiversity and Food Sustainability

Paris, May 31st – June 1st, 2018

Aim and Topic.

Global changes such as climate change, international trade agreements, loss in global biodiversity and volatility of world food prices pose challenges for agricultural production, the sustainability of renewable resources, and the well-being of consumers. These global threats require not only the analysis of existing national and international policies, but also require thinking about the design of innovative policies that could reconcile economic, environmental and social goals. Policies that will be discussed in this conference include agricultural, environmental, land use and food policies, and trade measures. The objective of the conference is to discuss recent theoretical and empirical contributions in economics on these topics.

Format.

The academic conference is run over two days, and comprises four thematic sessions. There are four paper presentations in each session and there are no parallel sessions. The number of participants will be limited to around 100.

Conference Venue.

INRA-AgroParistech, Amphithéâtre Coléou,
16 rue Claude Bernard 75005, Paris, France.

Preliminary Program.

The program will include four thematic sessions:

Session 1: Trade, environment and natural resources

Confirmed invited speakers: Brian Copeland (The University of British Columbia, Canada), Astrid Dannenberg (University of Kassel, Germany)

Session 2: Consumer behavior and information

Confirmed invited speakers: Jutta Roosen (Technische Universität München, Germany) and Diogo Souza Monteiro (Newcastle University, United Kingdom)

Session 3: Climate change and agriculture

Confirmed invited speakers: Wolfram Schlenker (Columbia University, USA)

Session 4: Heterogeneity and inequality

Confirmed invited speaker: Marc Fleurbaey (Princeton University, USA) and Michele Ver Ploeg (USDA, Washington, USA).

Conference Organizers.

B. Bayramoglu (UMR Economie Publique, INRA-AgroParisTech ; basak.bayramoglu@inra.fr),
